THE WORLD OF INTERIORS

The 'Nino' pendant is part of an imaginative new collection of award-winning lighting by Baroccelli. Each piece features varying combinations of a single curved element, which can be easily built upon then reconfigured as required. The result is a sculptural selection of wall lights, pendants and chandeliers, finished with cristallo rods and satin-gold metalwork to accentuate their simplicity of form.

Baroccelli creates exclusive designs in Murano glass for clients throughout the world. Crafted by hand and made to order, each product is distinguished by a bold and passionate approach to the creative process. For more details, ring 020 7720 6556, or visit baroccelldesign.com
