INSTALLATION INSTRUCTIONS 2 OF 7

BARONCELLI &

STEP 1

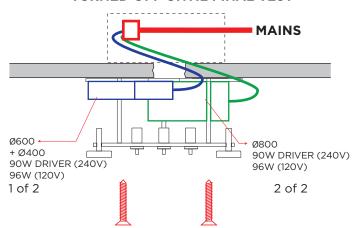

Ensure box is laid flat and opened from the correct side.

STEP 2

Remove canopy from centre of box. Release cable ties to remove pendant ring.

NOTE: This ring is packed to enable installation without removal of its protective packaging.

*ENSURE THE MAINS POWER IS TURNED OFF UNTIL FINAL TEST

STEP 3

Securely fix the ceiling plate into a ceiling beam/joist (or Junction box for US) using a minimum of 4 fixings. Ensure the fixings are capable of taking the relevant weight. Connect main to power supply.

NOTE: SCREW FIXINGS ARE NOT SUPPLIED

STEP 4Remove film to access suspension cables.
Ensure the ring is correctly orientated.

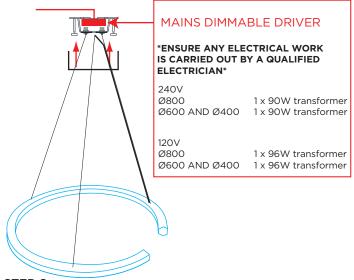

GRIPPER AND SAFETY CAP

Each gripper will have a safety cap which needs to be unscrewed a little in order to allow the cable. To shorten a cable simply feed the cable back up into the gripper. To lengthen a cable push the loosened cap upwards and the gripper will disengage allowing the cable to pass through it.

STEP 5

Pass the three suspension cables up through the ceiling canopy and into the gripper units. Tighten screw caps to lock grippers. Repeat process for the remaining rings.

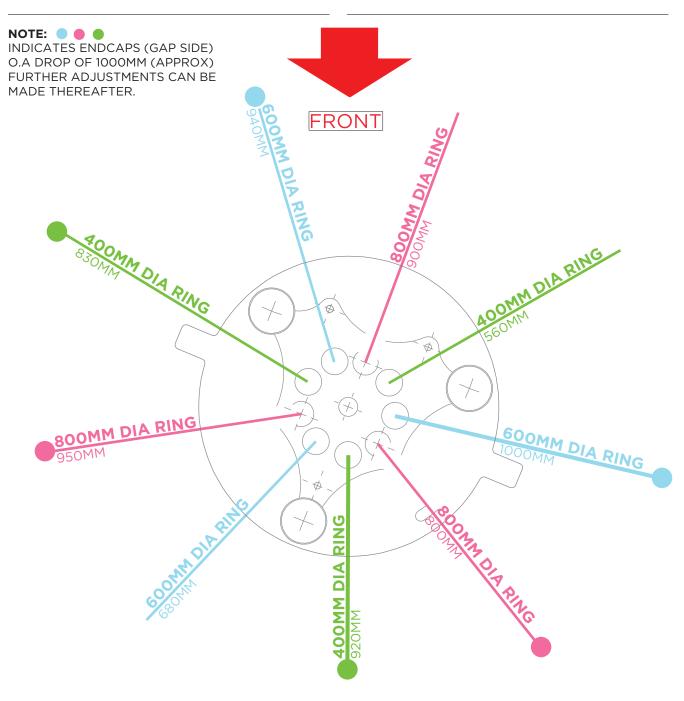

STEP 6

Pass the electrical cable through the ceiling fitting and make electrical connection to the driver. Remove protection packaging from the ring. Repeat process for the remaining rings.
