## STEP 1

Rotate the top half of the frame.  
Pass the threaded tube through the hole.

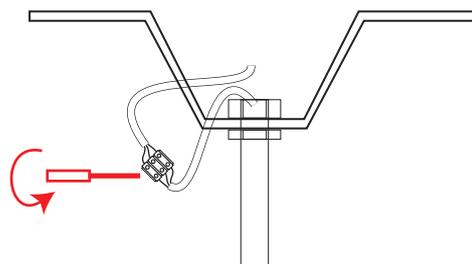

## STEP 2

Attach stem to the frame and secure using the side screw.

## STEP 3

Fix the stem bracket to the ceiling beam or joist  
(or junction box for US). Ensure the fixing is  
capable of holding the relevant weight.

**\*ENSURE THE MAINS POWER IS  
TURNED OFF UNTIL FINAL TEST**

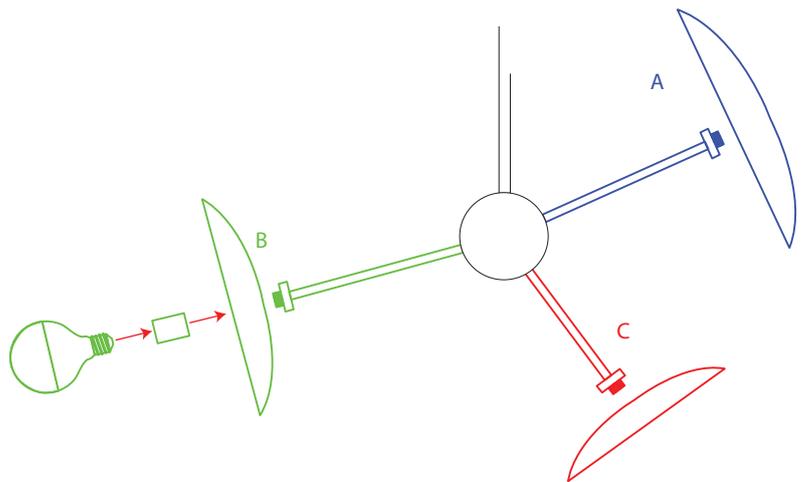

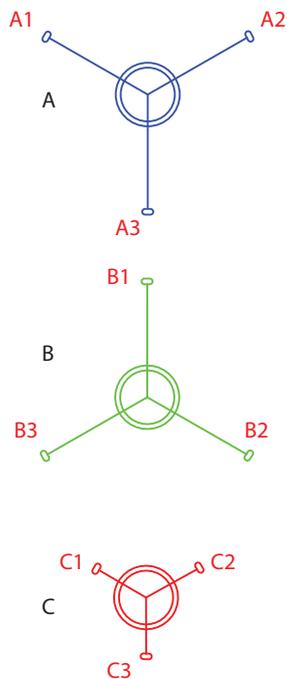

**\*ENSURE ANY ELECTRICAL WORK IS  
CARRIED OUT BY A QUALIFIED ELECTRICIAN**

## STEP 4

Make electrical connection and test the light.

BARONCELLI 

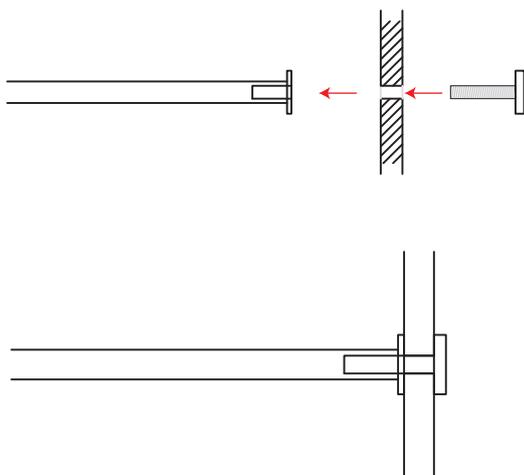

## STEP 5

Attach glass in accordance to the above step.

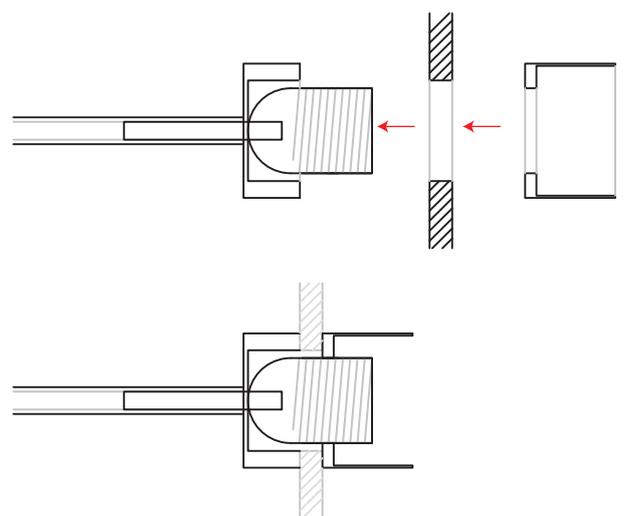

## STEP 6

Working from the top down attach the glass elements in accordance with steps 7 and 8.

## STEP 7

For the non-bulb elements (A and C) attach glass elements with the smaller hole into the stem. Hold in place flush onto the stems face and use screw fixing to secure glass in place.

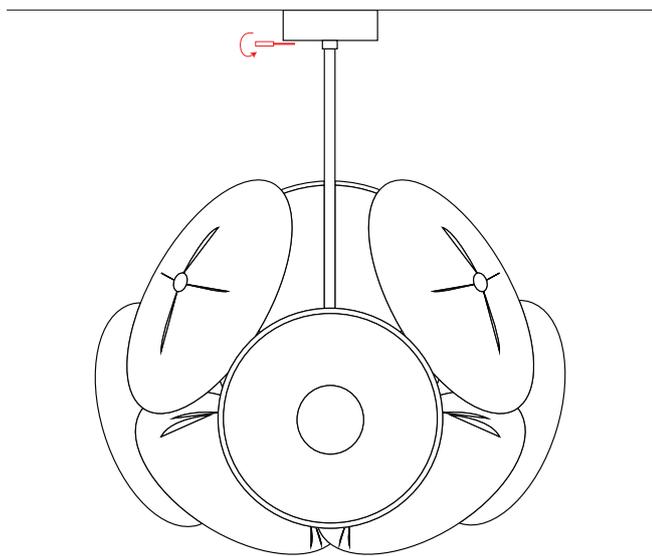

## STEP 8

Attach glass elements with larger hole into the stems (B) with the bulb housing. Ensure bulb housing passes through. Hold glass in place and secure with metal sleeve after.
