SIZES

DETAILS

FIXING

Secured to wall by 2 screws (not supplied).
Please ensure fixings and wall surface are suitable
to carry the weight indicated.

INSTALLATION

Fixture requires on site assembly by qualified
electrician.

ELECTRICALS

LAMP

240V/120V
Warm white LED tape (2600K) 1050 Lm

POWER

24V LED tape with power output of 14W

Supplied with 24V constant voltage mains
dimmable transformers. Trailing edge dimming is
recommended for best results. Transformers are
housed within wall mounting.

Full transformer specification available upon
request.

1-10v and DALI dimming options are available by
request, requires an additional cable circuit to
be provided, please consult your electrician for
suitability.

STANDARD

All lighting is made to CE standards.
LED tape UL listed, driver ETL certified.
